February 2017

Chapter 274 of the American
Association of Woodturners

Atlanta Woodturners Guild Newsletter

I hope everyone enjoyed our presenter in January, Mike Sorge. How many of you have go home and given it a try? I did and it is not as easy as he made it look. Please bring in items for show and tell it is a great way for other members to get some ideas what their next project maybe.

Remember in February our meeting will be starting earlier to make sure we have the full time we need for our presenter.

Also we will have one of the club members in a special area before the meeting to help you if you are having an opportunity in your woodturning and need to ask some question. If you can bring in the item you are working on that is the opportunity it helps. The person there will try to help you and if not will find someone who can. This is new and if after few months no one uses this we will discontinue it. We are all here to learn do not be ashamed to ask for help and assistance.

Also remember we have restarted the social time before the meeting. So if you want to beat traffic and get to know you fellow wood turners better. We will be going as a group to a local restaurant within walking distance of Woodcraft. We will be leaving between 5:00-5:15 so come join group. You will be amazed how much more you will learn about woodturning and members of the club.

February Meeting – Donna Banfield
livealifelessordinary.com/Galleries.html

During her demo, Donna will cover 2 topics:

- **Pyro Engraving:** The equipment needed (both required and optional), as well as the variety of woodburning pens and tips. She will then quickly move on to show how to use them to ‘carve’ and create textures and patterns on flat and curved surfaces.
- **Air Brushing:** The equipment needed (both required and optional), as well as the types of air brushes and paints. She will then quickly move on to show how to use them to add color and patterns on flat and curved surfaces. Using painter’s tape and frisket, Donna will demonstrate the use of masking to create stunning color and patterns. Most important, Donna will show to keep your airbrush working with proper cleaning after your session is complete.

About the Guild

The Atlanta Woodturners Guild (AWG) was formed to provide support, ideas, and camaraderie to fellow woodturners in the metro Atlanta area. The Guild meets once a month and members are invited to display examples of their work at the instant gallery. New and established turners have the opportunity to ask questions and solve problems with other members.

At each monthly meeting a demonstration is conducted by professional turners from all over the world. It is a great opportunity to see a professional in action, ask questions and learn techniques. The AWG has a comprehensive library stocked with woodturning DVD's, and books. These items are available to the membership for a small rental fee. Members are kept informed about upcoming events and activities through this, their web site.

All interested in learning about woodturning are welcome to attend the month meetings.
